Large Technical Tool Bin TA 502 30

Product information

Large tool bin made from synthetic technical fabric for transporting and organizing hand tools between jobs. It suits maintenance and workshop work where a lightweight, open-access carrier is needed, with a reinforced base and structured top edge to help the bin keep its shape.

When to choose this product

Best for:

- Keeping small tools and accessories organized in one open bin.
- Moving hand tools between work areas with quick access.

Product benefits

- Synthetic technical fabric keeps the bin lightweight at 950 g.
- One chamber with 2 inside and 2 outside pockets helps separate items.
- Reinforced plastic bottom improves stability during daily transport.
- Stiffened top edge helps the bin hold its form in use.
- Carrying handle supports fast movement between tasks.
