

## Vertical Lifting Clamp TSHP/TSHP-A

### Product information

Clamp for vertical lifting, handling and transporting of Holland Profile (HP) shipbuilding structures, steel plates and structures. Also useful as a “big-jaw” opening clamp. Lifting of longer sections should be done with a spreader beam.

Model TSHP: Standard clamp

Model TSHP-A : Equipped with adjustable Jaw opening.

#### Features:

- Standard with 3 pivots for extra powerful clamping force
- Easy handling of workpieces in and out of lathe due to extra small W-dimensions
- Lightweight design for easy handling
- Tough quality heavy duty welded shell body
- Always equipped with a safety mechanism, ensuring the clamp does not slip when lifting force is applied and when load is being lowered
- Clamp is locked in closed as well as open position
- Maintenance-friendly, easy to exchange parts which are available upon request
