Fall Arrest Service

Product information

We have broad specialist expertise and experience in carrying out inspections of fall protection equipment used when working at height.
Our service fitters can carry out inspections and service on a range of fall protection equipment.

We have modern workshop facilities with parts and the necessary tools to check a wide range of equipment.

Other fall protection services include:

- Service and maintenance of horizontal and vertical systems.
- Advice on the design of fall protection systems.
- Installation of fall protection systems.
- Proof load of fall protection point.
- Service workshop for a range of products.
- Courses and training for work at height.

Contact the service department +47 468 46 232
Or send an e-mail to Anders Øye.
