

One Way Lashing

Product information

The One Way Lashing System offers a high yet economic method of lashing cargo when conventional lashing systems cannot be retrieved at destination for re-use. The tensioning tool attaches to most webbing and is fast and easy to operate. In the LC column the lashing capacity is indicated in combination with lock and webbing.

Part code	LC kN	LC daN	MBL	Band width mm	Description	STF daN	Delivery time
