

Beam Clamp TOBK

Product information

For horizontal lifting, transportation and stacking of steel (H) beams, profiles and structures.

Features:

- Special design makes it possible to lift steel (H) beams on the flange as well as on the upper ends of the beam
- Always equipped with a safety mechanism, ensuring the clamp does not slip when lifting force is applied and when load is being lowered
- Clamp is locked in closed as well as open position
- Lightweight design for easy handling
- Tough quality heavy duty welded shell body
- Maintenance-friendly, easy to exchange parts. Parts available upon request [... Read more](#)

Marking: According to standard, CE-marked, Type, serial number, WLL, Jaw opening

Temperature range: - 40°C to +100°C.

Standard: EN 13155

Warning: Surface hardness of the beam must not exceed 37 Hrc (345 Hb, 1,166 N/mm²)
