

Solid Casted Lifting Bag - Large 4272

Product information

The second of our solid casted bucket bags. This bag is large, durable and is a perfect solution for very heavy content with pointy edges. The bag can be difficult to handle and transport while on the ground and EMG therefore offers the solution of adding handles and/or wheels.

Material: PVC flat-coated material

Marking: According to standard

Standard: ISO 21898 , EN 1492-1
