Scaffolder Fall Arrest Kit FA8000200

Product information

Scaffolder fall arrest kit is a complete personal protective equipment set designed for work on scaffolding and elevated structures. It combines a full body harness with a webbing lanyard and integrated energy absorber to reduce fall impact forces. This kit is intended for professionals working at height who require a ready-to-use, compliant fall protection solution.

When to choose this product

Best for:

- Scaffolding work and temporary access structures above 6 m
- Construction and maintenance tasks requiring mobile fall protection

Product benefits:

- 2-point harness design improves connection flexibility for fall arrest systems
- Adjustable leg straps support fit and reduce positioning errors
- 1.8 m webbing lanyard with energy absorber limits fall impact below 6 kN
- Integrated fall indicator enables quick inspection after load event
- Steel connectors with secure locking reduce accidental disengagement

Kit contains:

- Body harness FA 10 103 00
- Energy absorbing webbing lanyard length 1.80 mtr FA 30 304 18
- A jute bag is supplied with this kit.
